Kent Test Results

Yesterday, the Year 6 children who sat the Kent Test received their results. Whatever the outcome, we hope they remember that there are so many exciting opportunities and different paths ahead. One test does not define you, and we are proud of every one of our children.

ZOO LAB - YEAR R

Our Year R children were delighted to welcome ZooLab to school this week for an engaging animal workshop. The children met a range of fascinating creatures, including a snake and a giant African land snail, and learned all about their habitats, diets and unique characteristics. The hands-on experience helped to build confidence, curiosity and respect for animals, and there was plenty of excitement and wonder throughout the session!

BREADHOGS - YEAR 1

Year 1 have been busy little bakers! They had lots of fun making their very own bread hedgehogs. They carefully shaped the dough, added hedgehog spikes and off to the oven their creations went. The children loved getting hands-on, exploring the ingredients and seeing their bread hedgehogs come to life!

What a fantastic way to develop their practical skills, creativity and independence. And the best part? Getting to enjoy our delicious hedgehog creations!
